Product professional with 3+ years across enterprise POS, CPaaS, and 0→1 marketplace design. Shipped a mobile POS product from concept to launch (**25%** quarterly revenue growth), and moved into enterprise CPaaS to build direct customer-discovery depth — owning deal-loss analysis, RICE roadmap prioritization, and a voice-of-customer pipeline that contributed to **15%** MoM revenue growth and a **30%+** retention improvement. Currently completing a BS in Applied AI & Data Science at IIT Jodhpur.

## PROFESSIONAL EXPERIENCE

### Product & Customer Insights — Acefone

Jun 2025 – Present

Delhi NCR · Enterprise CPaaS & cloud communications · Title: SDR II, scope spanning enterprise discovery and product input

- **Enterprise deal-loss analysis:** Owned a full review of closed-lost opportunities, interviewing **20+** enterprise customers and building three JTBD-based personas that separated genuine product gaps from non-product loss factors.
- **Voice-of-customer pipeline:** Built a structured pipeline turning recurring pain points from enterprise conversations into prioritized product feedback — contributing to **15%** month-over-month revenue growth and a **30%+** improvement in retention.
- **Roadmap prioritization (RICE):** Scored and sequenced four strategic roadmap initiatives, recommending AI Voicebot investment based on technical feasibility and business impact.
- **Competitive benchmarking:** Built a framework comparing pricing, UX, and feature depth across leading CPaaS platforms, adopted by the product team as a standing reference.

### Associate Product Manager — Satel Systems

Aug 2023 – May 2025

Delhi NCR · Enterprise POS · EMEA, US, UK markets

- Identified a decline in ERP sales through customer conversations, built the internal case for a mobile POS pivot, and partnered with product and engineering through to launch — opening a new revenue stream that drove **25%** quarterly revenue growth.
- Defined API requirements and acceptance criteria with engineering for enterprise POS workflows.
- Coordinated cross-functional delivery across product, engineering, and sales for rollout to enterprise customers across EMEA, US, and UK.

### Product Intern — Choco Global

Jun 2022 – Jul 2023

Delhi NCR · Part-time, alongside full-time study

- Led customer discovery and requirement gathering, translating business needs into detailed PRDs and working with design to deliver development-ready specifications.
- Launched marketplace distribution initiatives that grew revenue month over month, and redesigned customer onboarding to improve early-stage retention.

## INDEPENDENT PRODUCT WORK

### KaamSetu — 0→1 Two-Sided Marketplace | Self-directed

- **Problem & scoping:** Designed a verification-first marketplace for India's informal hiring market, reducing twelve candidate workflows into a single trust-first MVP while deliberately deferring non-critical features.
- **Research & PRD:** Ran primary interviews and competitor app-review analysis, then authored a full PRD — three personas, North Star metric, phased roadmap (MVP → Retention → Scale), and functional requirements across 12 screens, plus a cold-start strategy for seeding both sides of the market.
- **Prototype:** Built a high-fidelity interactive prototype covering onboarding, identity verification, job discovery, and verification tracking for MVP validation.

### Enterprise CPaaS Deal-Loss & Roadmap Case Study | Self-directed

- End-to-end product strategy case study: discovery synthesis, three buyer personas with JTBD statements, competitor analysis, a RICE-prioritized roadmap, AI architecture proposal, and a documented decision log with assumptions and risks. Published at [richa-pm-portfolio.vercel.app](https://richa-pm-portfolio.vercel.app).

## SKILLS & EXPERTISE

**Product:** RICE Prioritization · Roadmapping · JTBD · User Personas · Product Gap Analysis · Competitor Benchmarking · Customer Discovery · OKR / KPI Tracking · 0→1 Product Design · A/B Testing · Agile · Scrum · Prototyping · Stakeholder Management · PRD Writing

**Data & Analytics:** SQL · Python · Mixpanel · Metabase · Data Visualization · Statistics & Probability

**AI / Technical:** Machine Learning · LLMs · Prompt Engineering

**Tools:** Notion · Jira · Figma · Salesforce · HubSpot · Claude (LLM + Design)

## EDUCATION

Indian Institute of Technology Jodhpur — BS, Applied AI & Data Science · GPA 9.22 · 7th Rank Holder

2024 – Present

Delhi University — Bachelor of Commerce

2017 – 2020
